EN Instructions**10" Steel ground stakes**

Instructions for the use of the 3 ground stakes included in this kit to secure your pet kennel to the ground.

1. Select the three best locations around the kennel and near the corners as shown here. Begin by turning the stake into the ground by hand.

2. With the help of a steel bar or screwdriver continue turning the stake into the ground as far as possible.

3. Using a hammer, drive the stake completely into the ground until the top of the stake covers the kennel tube.
