

Categories determined by Quality!

The items from the area of **Cushions & Beds** are sorted by quality features of materials used, fillings and product properties, and these are taken as criteria for fitting them into our categories BE NORDIC, HOME Edition, STRONG Edition, SOFT Edition and BASIC Edition.

Mats & Blankets as well as **Caves & Cuddly Bags** make up their own section to show the entire product selection. The individual items are assigned to the above clusters.
