

TRIXIE Vital Range

The TRIXIE product range for lying mats is continuously expanded and now comes with a multitude of Vital products. Fillings of viscoelastic foam play an important role for this, along with the design and the cover materials. The Vital range offers various models that differ in composition and workmanship of the filling materials. This

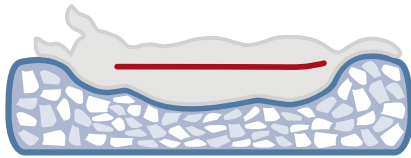

means that the way to lie and the preferences of every animal can be addressed. The introduction of the new Vital sketches guide the customer through the Vital range in an easy, uncomplicated way.
