

JULIUS-K9®

USER GUIDE

K9 Powerharness

Julius-K9® was the first in Europe to use K9 brand name, which includes harnesses, protective equipment and clothing for professionals and civil dog owners. Known for their innovations in developing harnesses, the experts of the company introduced solutions never seen before. Thus in 2001 the producing company put the „Power” attributive before the names of the harnesses deservedly. Finally the two biggest Austrian police training centers and the fire service used the harnesses with excellent results in sharp actions. The product is only made of fabrics produced in the EU. Fulfills the quality expectations to the highest standards.

HOW TO FIT AND ADJUST

SIZE GUIDE / HOW TO MEASURE

HOW TO MEASURE RIGHT

- Place two fingers behind the front legs to find where to measure the chest (girth) for harness sizes 3XS/Baby1 and 2XS/Baby2; or three fingers for size XS/Mini-Mini and S/Mini; or four fingers to take measurements for sizes M/0, L/1, XL/2 and 2XL/3.
- The chest circumference should be measured where the strap is supposed to be located. Choosing the correct size ensures maximum freedom of movement and protects the neck and shoulders.

Size	Chest Circumference	Weight
3XS / Baby1	29-36 cm	0,8-3 kg
2XS / Baby2	33-45 cm	2-5 kg
XS / Mini-mini	40-53 cm	4-7 kg
S / Mini	49-67 cm	7-15 kg
M / Size 0	58-76 cm	14-25 kg
L / Size 1	63-85 cm	23-30 kg
XL / Size 2	71-96 cm	28-40 kg
2XL / Size 3	82-115 cm	40-70 kg

CARE

HAND WASH ONLY

DO NOT IRON

DO NOT BLEACH

DO NOT DRY CLEAN

DO NOT TUMPLE DRY
